

Nature Up North Academic Internship – Fall 2018

Application Deadline: *Extended to Sunday, September 16th*

Do you love the outdoors? Are you a skilled photographer, nature writer, or tech guru? Do you have a knack for graphic design, video production, or computer science?

Nature Up North, an environmental education and outreach project at SLU, is offering part-time paid internships for students to develop content for natureupnorth.org. Intern activities vary based on skill area. We hope to hire creative, talented students with complementary skills, including:

Photography

Videography

Nature/Science Writing

Journalism

Graphic Design

Environmental Education

Social Media

Web Development

Java or Python

GPS/GIS

Students with interest in nature and skills in **any** of these areas are encouraged to apply.

Academic year interns earn \$8.30/hour **or** receive academic credit (optional) and are expected to devote 5-8 hours/week to the project. This is a great opportunity to become involved in the North Country community while simultaneously applying skills developed in coursework to a broader mission.

Intern responsibilities may include (but are not limited to):

- Attending a weekly editorial/planning meeting
- Developing web content such as blog posts, photo essays, videos, journalistic pieces, graphic design work, or computer applications/programs for natureupnorth.org
- Traveling across St. Lawrence County to conduct field research, interviews, and document local environmental and cultural events.
- Contributing to website improvements on natureupnorth.org
- Maintaining and expanding Nature Up North's social media presence
- Representing Nature Up North on campus and in the greater community

Internship activities will be led by Erika Barthelmess (Biology), and Emlyn Crocker (Nature Up North); with additional advising from Choong-Soo Lee (Computer Science) and Jessica Prody (Performance and Communications Arts). Guest speakers will add serve as a supplemental resource.

How to Apply:

To apply for the Nature Up North academic-year internship please submit the following:

1. Completed application form (please see the form below)
2. Cover Letter
3. Unofficial academic transcript
4. A writing sample, link to personal website, YouTube/Vimeo page, computer programming example, photo samples, or other work which showcases your skill(s). This can be work for a class at SLU, and does NOT need to be new content. Please upload videos to YouTube or Vimeo and share via link with application.

Questions? Contact Emlyn Crocker (ecrocker@stlawu.edu), Nature Up North Project Manager

Return Completed Application Materials via email as a SINGLE PDF DOCUMENT by Sunday, September 16th, 2018 to Emlyn Crocker (ecrocker@stlawu.edu). *Nature Up North's internship opportunities are made possible with funding from the Mellon Foundation.*

Nature Up North Academic Internship – Fall 2018

Application Deadline: Thursday, September 13th

1. General Information:

Name: _____ SMC: _____ Class Year: _____

Home Address: _____

Phone Number: _____

GPA: _____ Major GPA: _____

2. References

Name	Organization	E-mail	Phone

3. Describe any skills or experiences that you feel have prepared you for the Nature Up North internship and how your skill-set will benefit the project.

4. As a NUN intern, you'll have considerable freedom to propose projects of your own design that communicate ideas about the North Country environment.
